ECGR-3101-001-Embedded Systems

Lab 0 Demonstration Validation Sheet

This sheet should be modified by the student to reflect the current lab assignment being demonstrated.

Lab Number:	L0
Team Members:	Matthew Anderson, Ali Altabtabae
Team Number:	Team 3
Date:	09/25/2023

Lab Requirements

Perform a self-review and indicate with an X if you complete each demonstration or not.

	Objective	Self-Review	TA Review
1	Lab compile demo	X	
2	Light blue LED stays lit	X	
3	When SW1 is depressed, and slide switch is open, nothing happened	X	
4	When SW1 is depressed, and slide switch is closed, blue LED turned off	X	
5	Blue LED stays off for EXACTLY 5 seconds	X	
6	Go back to objective #2	X	

Comments

If you were unable to meet a particular requirement or if a requirement required a custom implementation describe briefly why you were unable to meet the requirement or what your custom implementation was in the box below, also if you had any additional considerations that you would like to be considered while grading you may type them here as well.
